

Creating a Ticket

Having computer trouble?

Open a ticket by emailing pshelpdesk@uci.edu or going to <https://ps.uci.edu/pshelpdesk>

- Make sure to **describe** the problem you are having.
For example, instead of saying "Computer broken", say "Computer will not turn on".
- **When** did the problem start happening?
- **Where** are you located and when are you in the office for us to swing by, if necessary? We will try to accommodate your schedule to the best of our ability.
- What **Operating System** are you using? Windows, Mac, Linux, etc
- Can you consistently **reproduce** the problem?
- Take a **screenshot** of any errors you see, including the URL if there is a webpage. If you are emailing pshelpdesk@uci.edu, attach the screenshot to your email. If you used the self-service link <https://ps.uci.edu/pshelpdesk>, click the attach button at the bottom to attach your screenshot.

Example Ticket Below:

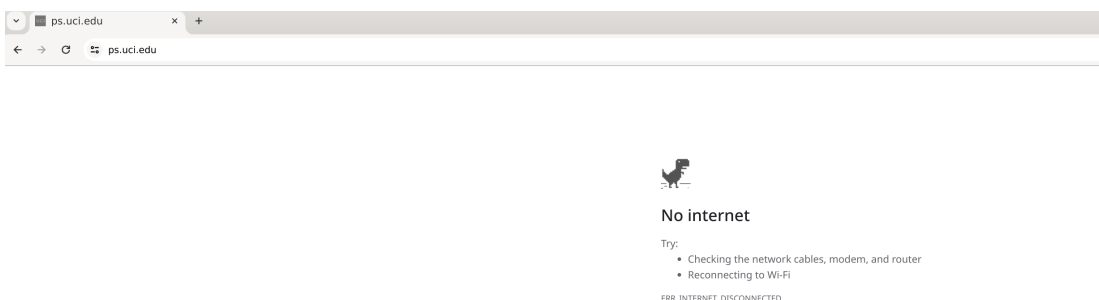

Short Description (email subject):

Can't access PS Website

Long Description (email body):

I can't connect to <https://ps.uci.edu> since yesterday, 8-23-23. Every time I refresh the page, I get an error message saying permission denied. I'm in RH 152 and will be available between 1PM-3PM Monday through Wednesday.

Here's a screenshot:

Revision #7
