Matlab install - error

Matlab install error when DUO desktop is running

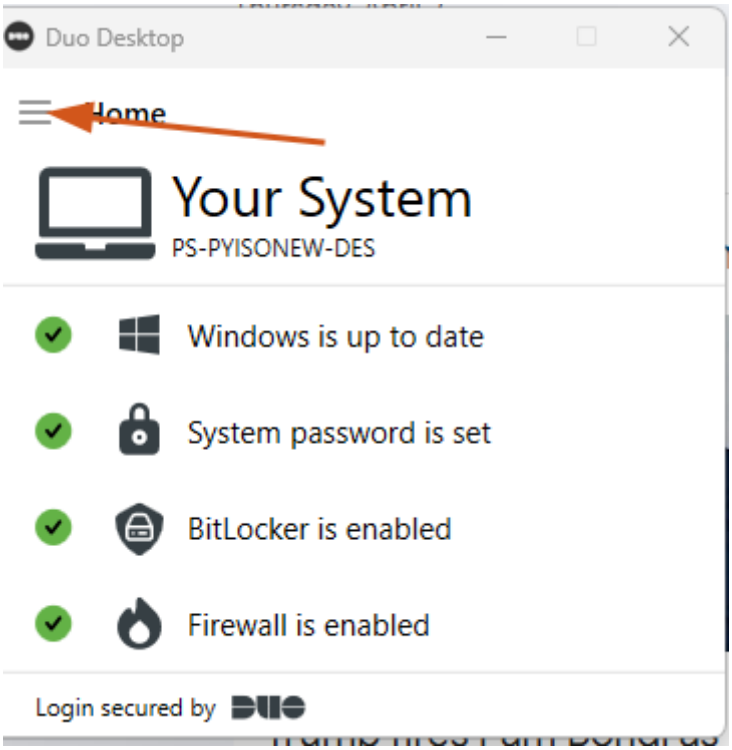

- How to install Matlab with DUO desktop

How to install Matlab with DUO desktop

1. Close all MATLAB windows and restart your computer.
2. Go to DUO Desktop at the lower right corner of your laptop.

3. Click on three bars at the top right corner of DUO Desktop App.

4. Click "Quit".
5. Start MATLAB, and it should prompt you to sign in.
