

Microsoft Office Mac Reinstall Troubleshooting

Steps that might help reinstall

- [Reinstalling MS Office on Mac](#)
- [Uninstalling Microsoft Office](#)

Reinstalling MS Office on Mac

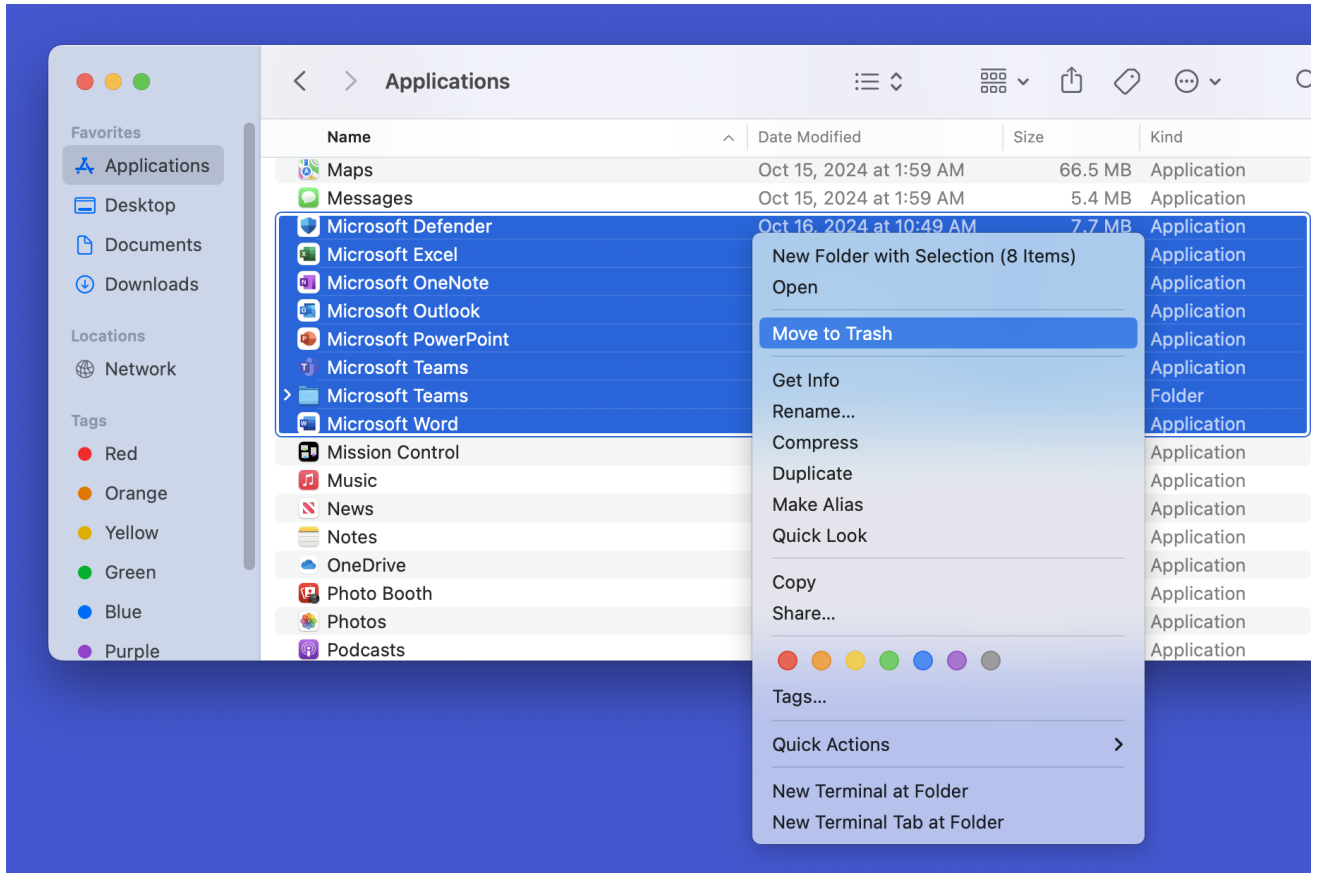

1. Clear login identity
2. <https://support.microsoft.com/en-us/office/uninstall-office-for-mac-eefa1199-5b58-43af-8a3d-b73dc1a8cae3>
3. clear keychain of all MS/Office/Windows stuff

Uninstalling Microsoft Office

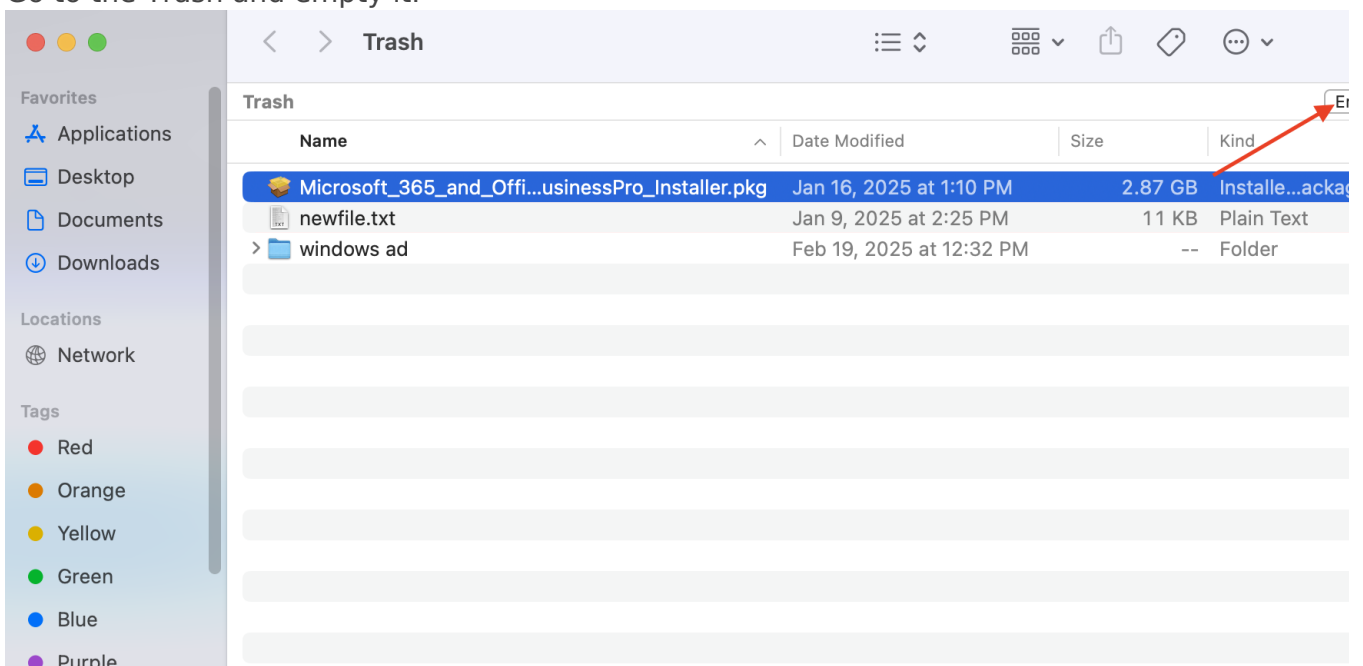

1. Go to "**Finder**" > "**Applications**", find the Microsoft Office applications to remove and right click.

1. Select "**Move to Trash**".

2.

2. Go to the Trash and empty it.

3. **Open up the terminal program on your mac. You can search and find the "terminal" by clicking on the magnifying glass on the top right of your screen.**

```
sudo rm -rf /Library/LaunchAgents/com.microsoft.*  
rm -rf /Library/PrivilegedHelperTools/com.microsoft.*  
  
rm -rf /Library/Preferences/com.microsoft.*  
  
rm -rf ~/Library/Containers/com.microsoft.*  
rm -rf ~/Library/Group\ Containers/UBF8T346G9.*
```
