We wanted to inform you that you have been set up on the Revvity Signals Platform authentication service.

To set your password, please go here: **https://login.srp.revvitycloud.com/lo/reset?ticket=YfFg6L8UXvX0B4TfKcY5LhNx4hZ5hXNi#**.

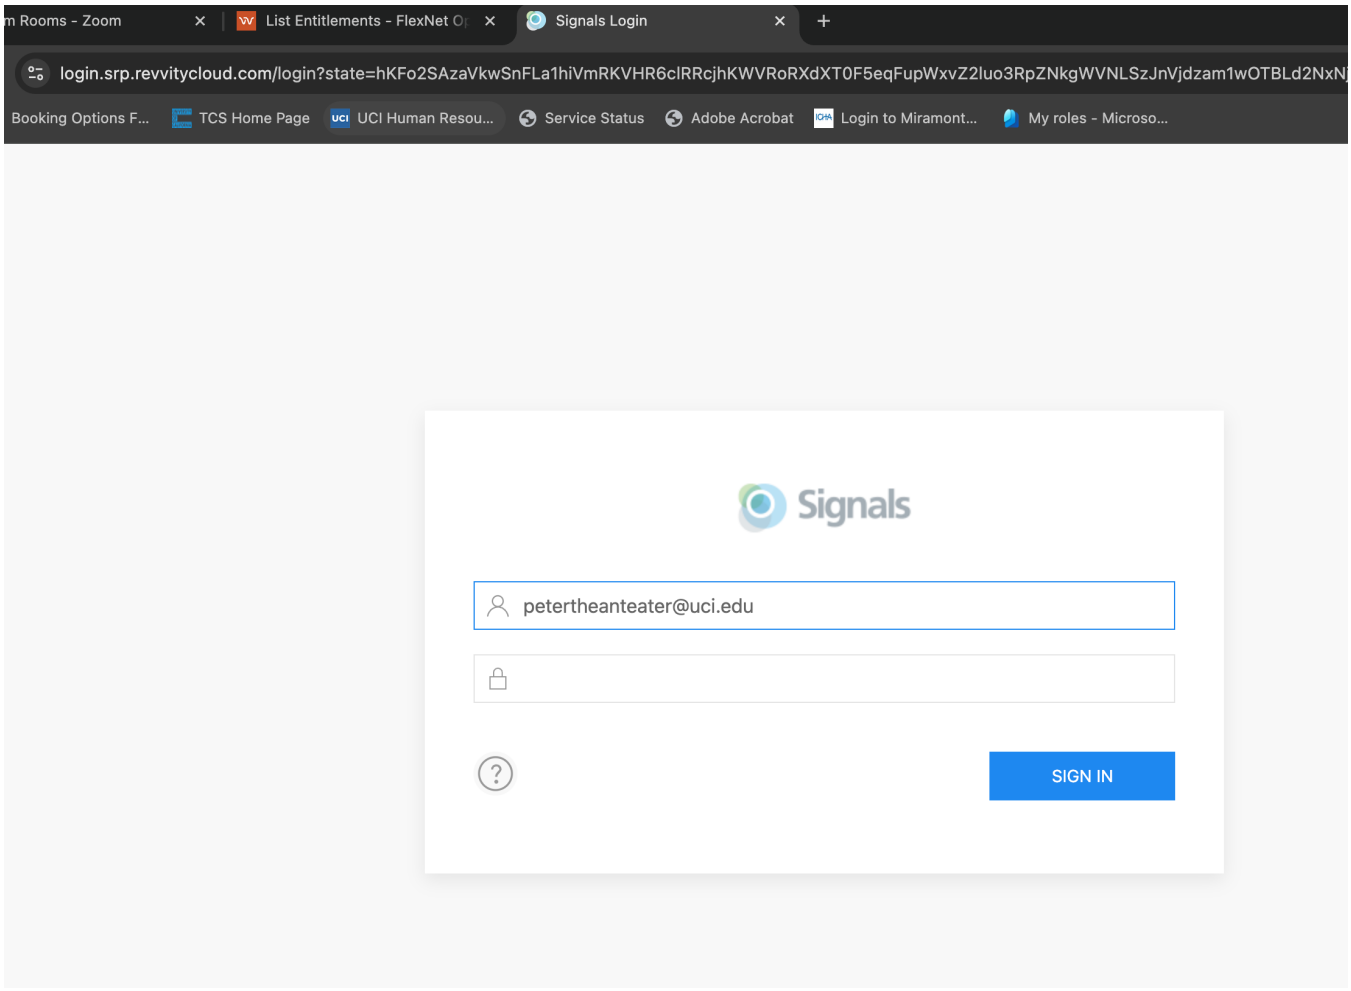

If you believe that this was in error please contact your System Administrator.

If you need to contact our support, please go to: https://support.revvitysignals.com/hc/en-us.

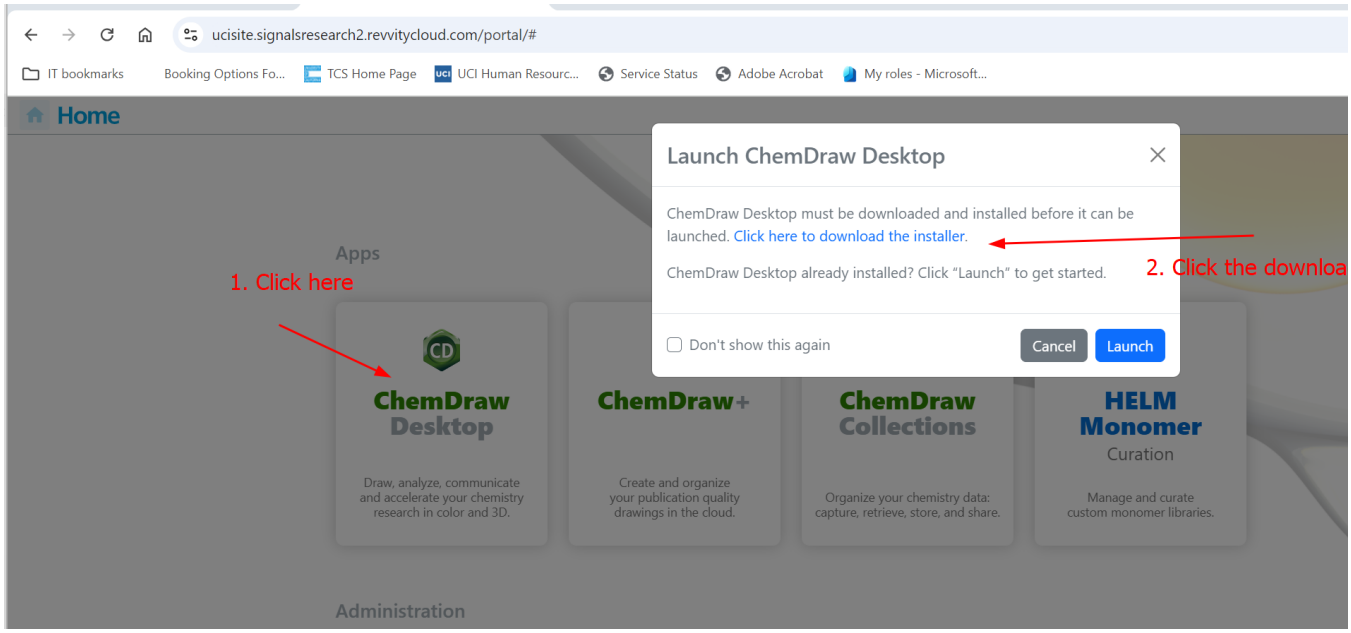

Kind Regards,

Revvity Signals

2. Go to https://ucisite.signalsresearch2.revvitycloud.com and sign in with your username (which is your ucinetid@uci.edu and your password from the previous step)
   NOTE: If you did not get the email from step 1 in 5-10 minutes, click on the ? icon at the sign-in page to reset your password.

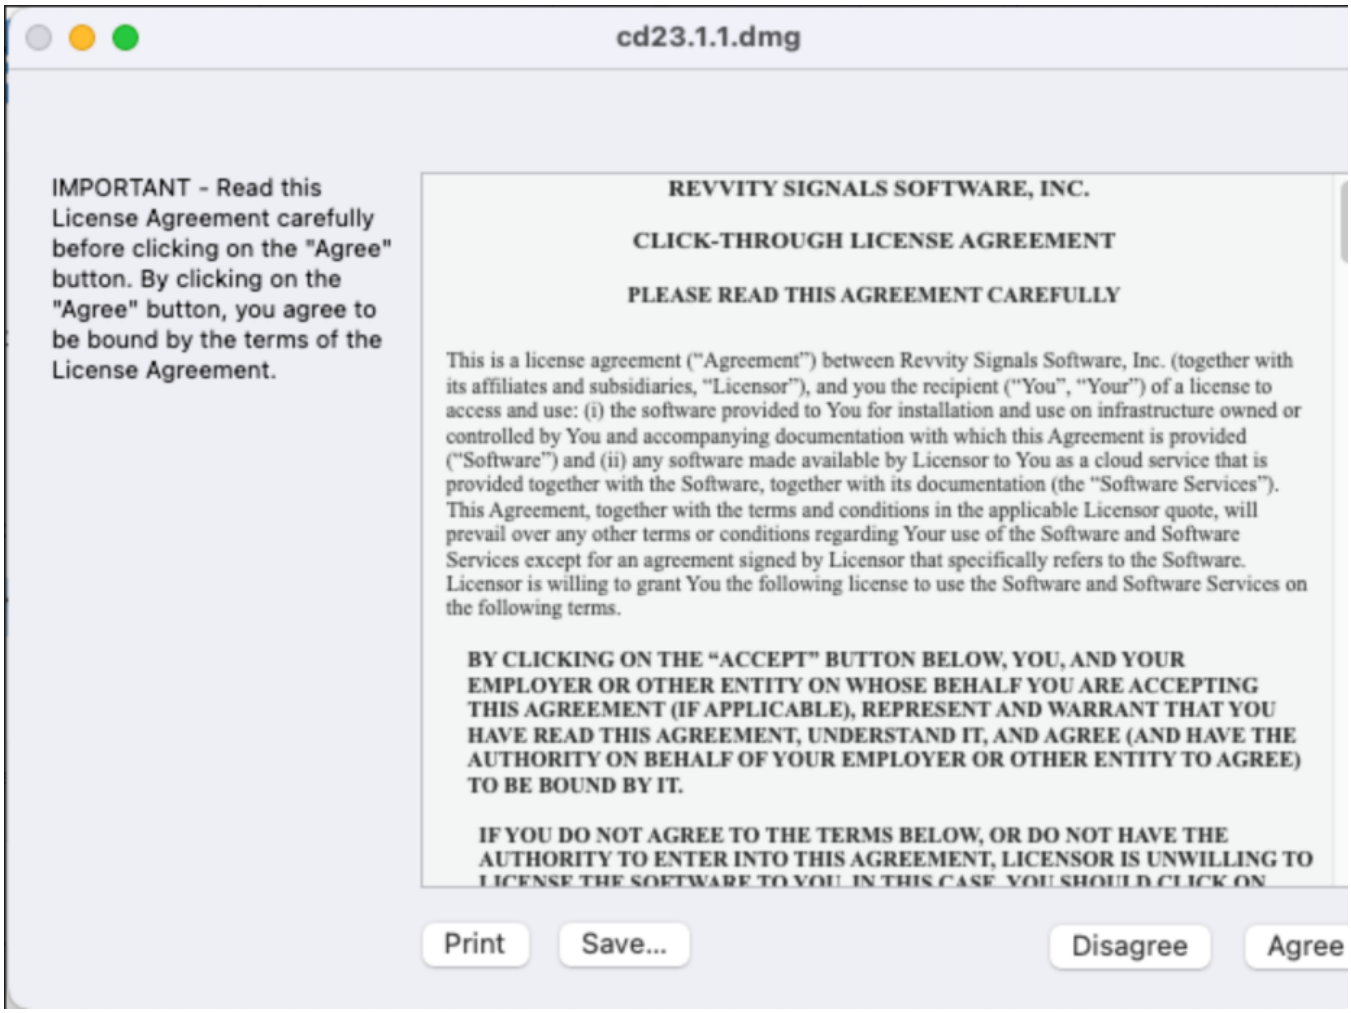

3. Click "ChemDraw Desktop" on the product, on the pop up windows, click on "Click here to download the installer"

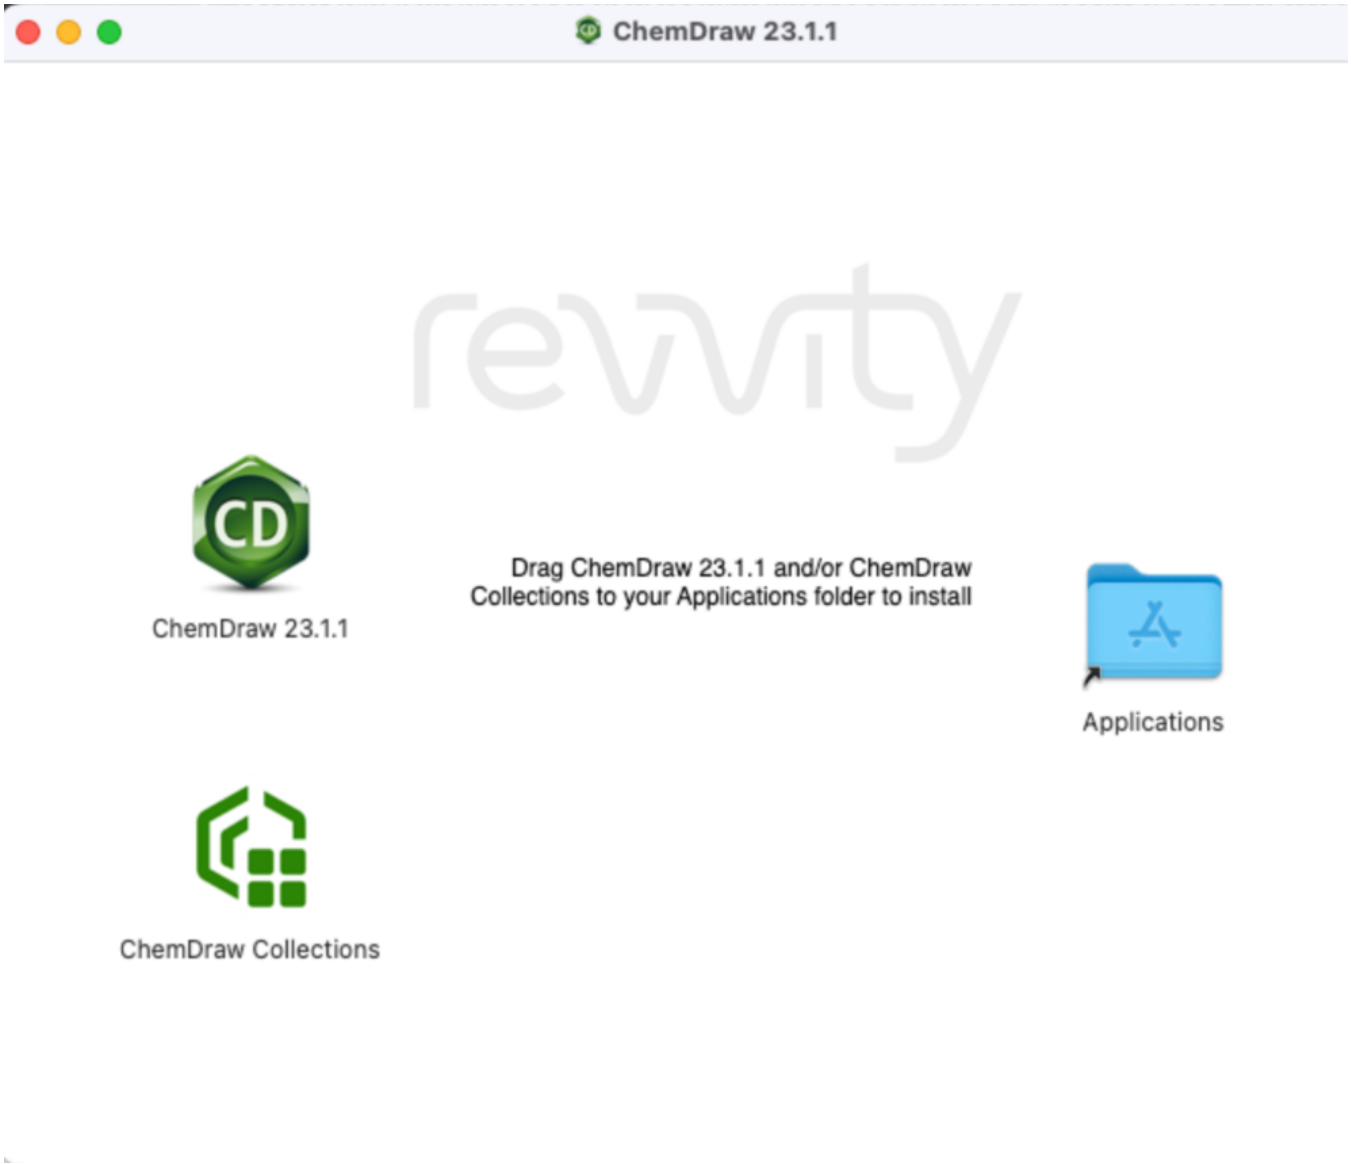

4. Download the software

   `it will download cd2x.xx.xx.dmg file.`

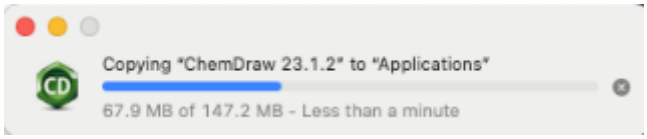

5. Double-click the dmg file you downloaded

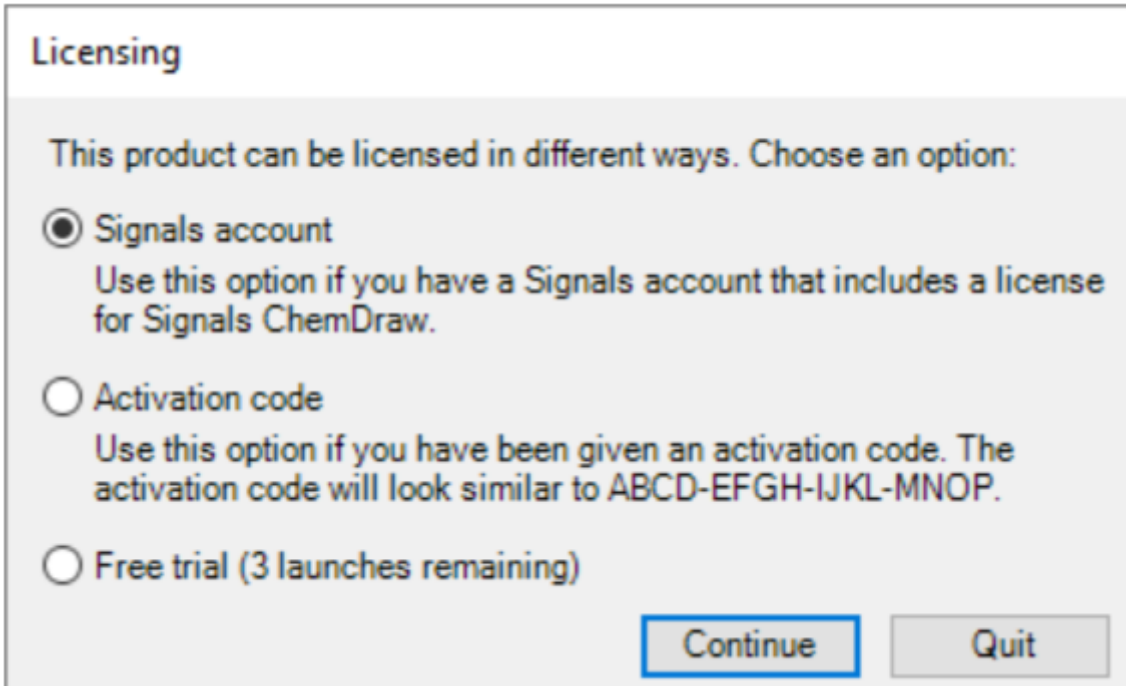

6. \ Follow the instruction on this pop-up window. (move the icons from the left to right)

7. Go to “Applications” folder and double-click on ChemDraw Professional to launch the application

You need to choose "signals account", and it will take you to Revvity sign in page.

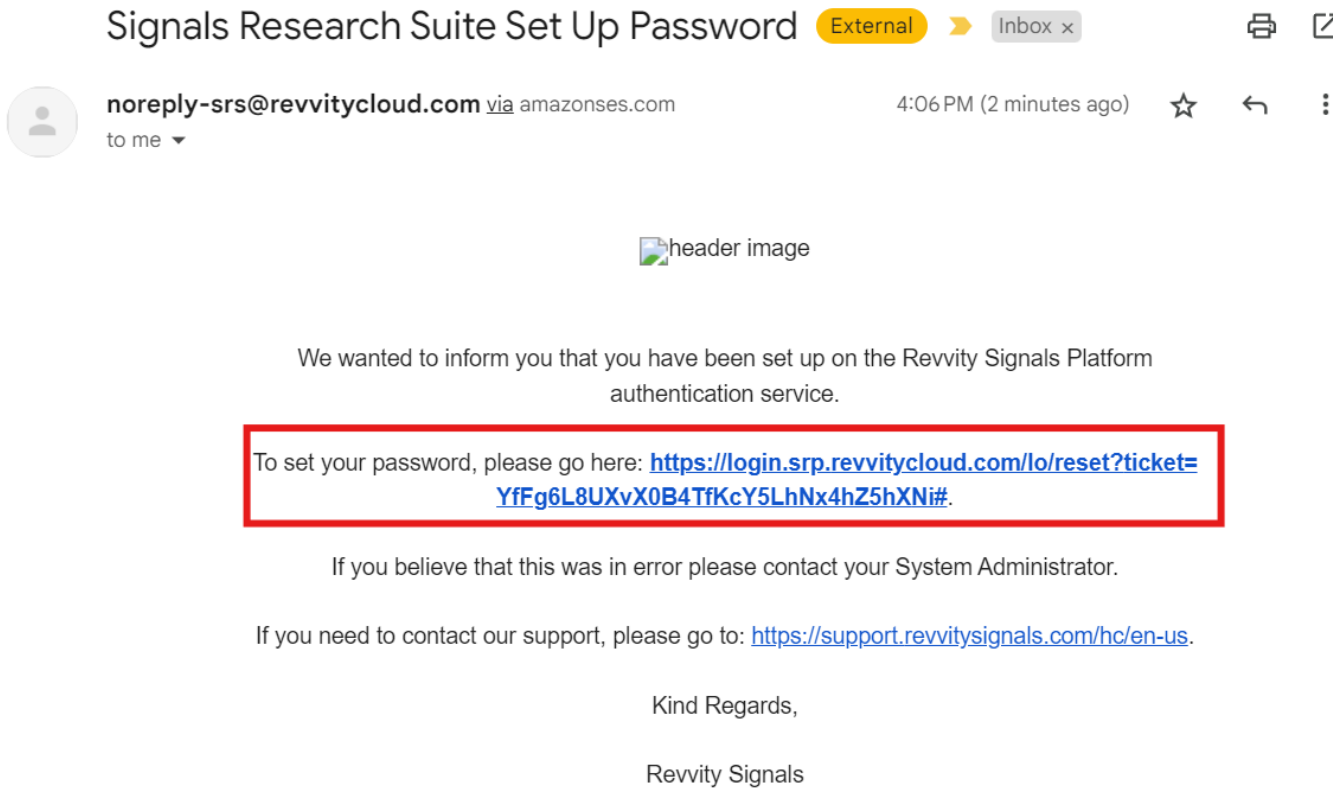

7. Enter this URL in the following pop-up window
https://ucisite.signalsresearch2.revvitycloud.com

8. Click “Install.”

9. Go to “Applications” folder or “Lauchpad” to find the “ChemDraw Professional”. Click to launch the application.

How to install ChemDraw for Windows

1. After you request the license via https://ps.uci.edu/software/chemoffice -> https://tools.ps.uci.edu/signals/, you will receive two emails from Revvity: one welcoming email and one for the password reset. Please follow the link in the password reset email.
