

Logging In

**[NOTE! If you are off the UCI campus, you will likely need to use the UCI campus VPN.
See www.oit.uci.edu/help/vpn/ for details.]**

Logging In

To log in to greenplanet, ssh to gplogin3.ps.uci.edu. If you are part of the ATLAS group, you should use gpatlas1.ps.uci.edu.

Example, from a terminal window:

```
ssh -Y username@gplogin2.ps.uci.edu
```

X11 (For graphical programs)

It will also help to have an X11 service running on your local computer. See [here](#) for how to get that installed.

X2Go (For remote desktop)

Session types "XFCE" and "MATE" are supported.
